### Description

Reeded posts supporting shelves, stick and ball galleries, carved gingerbread, beading, ornate brass hardware, beveled mirror and original finish are the first phrases that come to mind when I think about describing this oak secretary which is truly a show stopper. The drawers are all mortised (I think that's the correct word) and the 2 lower drawers lock with the same key as the drop front on the desk. The secretary is 67 1/2" tall, 30" wide and 14 3/8" deep. I was told by an auctioneer friend that this piece could have been made in Sheboygan. As with all things beautiful and old, it comes with some concerns and they would be, the shelf over the top drawer and the very bottom center shelf have lost a portion of the finish, there is a 2 inch section of beading missing from the left side, below the right hand door there is a small section of wood missing which is 1" square, slight silver loss on beveled mirror, 3 "filigree" brackets are missing from the pigeon holes, 2 pieces of trim are missing from the underside of the bottom shelf where the shelf meets the legs and the old boards on the back are loose. The finials on the top need tightened down and several pieces of trim need to be reglued. You will find a couple of scratches and a ring inside one of the doors. The secretary needs a good cleaning and polishing also. I have tried to be very accurate listing any problems and hope I haven't missed anything. None of the above are critical concerns and the missing pieces can be replicated by a craftsman. Do not let these concerns prevent you from owning one of the finest secretary's I have ever seen. I can promise you that even the most modest new secretary made of pressed sawdust would cost you more than the reserve on this item. This item is
